2SLGBTQIA+

Parent/Caregiver

Information Session

During this session Nik Bassett (they/them) of the Youth Project will be offering a presentation that includes Youth Project supports and services for parents and loved ones of 2SLGBTQIA+ youth, their lived experience coming out to parents and family, and tangible examples from this experience around what was and wasn't helpful. Following this will be time for Q&A where Nik will compile a resource list that directly speaks to challenges that attendees are facing.

Nik welcomes attendees at any stage of their learning, acceptance, and celebration of their 2SLGBTQIA+ child and/or friends/peers of 2SLGBTQIA+ students and works to create a non-judgemental space that meets participants where they are currently at. Attendees are encouraged to participate in whatever way is most comfortable for them - whether that is passively listening with your camera off, or being actively engaged, asking questions, and being on camera.

March 10th from 6-7pm
